TALK.ROOM

空间的转换与融合
TRANSFORMATIVE FUSION OF SPACES

IDEAS
TO 办公环境·优化整合
OPTIMIZE
YOUR SPACE

TALK.ROOM

电话亭

高效的工作离不开舒适的办公环境。在当下流行的开放式办公形式中，人们更注重享受高效而专注的工作体验，但与此同时也会有噪音问题显现。在开放式办公场所中，由于噪音的干扰，员工工作效率会随之降低，工作注意力也会被分散，开放式的空间布局也无法为员工提供隐私区域。因此，利用声学技术而设计的功能性电话亭成为了开放式办公空间的噪音解决方案之一。

Efficiency in work thrives in the embrace of a comfortable office environment. In today's popular open-office setups, individuals seek the harmony of efficient, focused work experiences. Yet, amid this, noise can become a distraction. The disruption of noise in open-office environments can diminish productivity and scatter focus. Moreover, the open layout often fails to provide the privacy employees require. Hence, functional phone booths, crafted using cutting-edge acoustic technology, stand as one solution to mitigate noise disturbances within open office settings.

SUSTAINABLE HAVENS IN THE OPEN OFFICE LANDSCAPE

开放办公空间中的可持续“容器”

TALK.ROOM Solo booth

TALK.ROOM Duo booth

TALK.ROOM Solo.Plus booth

TALK.ROOM 为满足不同的办公需求、丰富办公空间形态而设计，旨在创建舒适、健康、多元的办公场景，其模块化的构造，易于组装，节省时间成本。

电话亭四角外侧的圆弧设计，在视觉上削弱金属框架的锐利，使其更好地融合风格各异的空间。新风、照明、电源插座等功能系统完善，确保工作进行顺利。

TALK.ROOM is meticulously crafted to cater to diverse office needs and enrich spatial dynamics, aiming to cultivate comfortable, healthy, and versatile office environments. With its modular construction, assembly is a breeze, saving valuable time and resources. The gracefully curved exterior of the telephone booth softens the metallic frame visually, seamlessly blending with various architectural styles. Complete with essential amenities such as ventilation, lighting, and power outlets, TALK.ROOM ensures smooth and uninterrupted workflow.

TALK.ROOM Solo booth

圆弧边设计 Arc edge design

8厘米厚的侧板墙体，圆润边缘彰显优雅
8cm thick side walls, rounded edge for elegance.

多层三明治结构 Multi-layer sandwich structure

多层吸音材料设计，呈现超强吸音降噪效果
Multi-layer acoustic material design, featuring ultra-strong sound absorption and noise reduction effect.

内壁装饰材料 Interior decorative material

采用聚酯纤维吸音板，实现理想的室内声学效果
Utilizing polyester fiber acoustic panels to achieve optimal indoor acoustic effects.

内壁附加饰面 Additional covering to inner wall

布料包覆内部墙壁，赋予墙面美感，触感舒适
Fabric upholstery provides the wall an aesthetic appeal and a comfortable touch.

夹胶钢化玻璃 Laminated toughened glass

有效阻隔外界噪音，打造安全静谧的私密空间
Effectively blocks outside noise, creating a safe and quiet private space.

金属门框 Metal door frame

窄边设计的铝材边框，轻盈时尚
Aluminium frame with slim edge design, combining lightweight and fashion.

通风系统 Ventilation system

配备高速静音风机，确保空气流通清新舒适
Equipped with high-speed silent fan, delivering refreshing and comfortable airflow.

照明装置 Lighting equipment

嵌入式方形吸顶灯，提供均匀柔和的照明
Embedded square ceiling light, providing uniform and soft illumination.

模块化安装 Modular installation

单片墙体组装成品，现场快速便捷搭建
Single assembled walls for quick and convenient on-site assembly.

承重万向轮 Load-bearing universal wheel

具备移动性的设计，安装后依然轻松推动
Designed for mobility, easily movable even after installation.

■ TALK.ROOM Solo booth with glass rear wall
单人电话亭【玻璃后壁】
W1000xD1000xH2300mm

TALK.ROOM Solo 专为个人设计的独立隐私空间。分为标准款和加大款，多层组合结构打造优秀的隔音效果，为员工提供无噪音的舒适声环境和隐私保护，可在不受干扰的情况下进行电话或视频会议。两种不同的背板材质风格各异，提升空间设计感。其中，玻璃背板的透明特质，可降低用户在狭小空间内的压迫感和紧张感。

TALK.ROOM Solo caters to the individual, offering a sanctuary of privacy. Available in standard and expanded sizes, its multi-layered composition ensures impeccable sound insulation, fostering a tranquil auditory environment and safeguarding privacy, enabling uninterrupted phone or video conferences. Two distinct back panel materials offer varied aesthetics, enhancing spatial design. The transparency of the glass back panel alleviates feelings of confinement and tension within the confined space.

TALK.PRO booth — A Sharp New Look

TALK.PRO 电话亭在原有标准版本的基础上，推出了全新立体棱角款。这一极具辨识度的几何切割设计自顶部棱角延展而出，勾勒出简洁利落的线条感，在视觉上呈现出鲜明的三维层次，赋予产品更具张力的几何轮廓与现代气质。

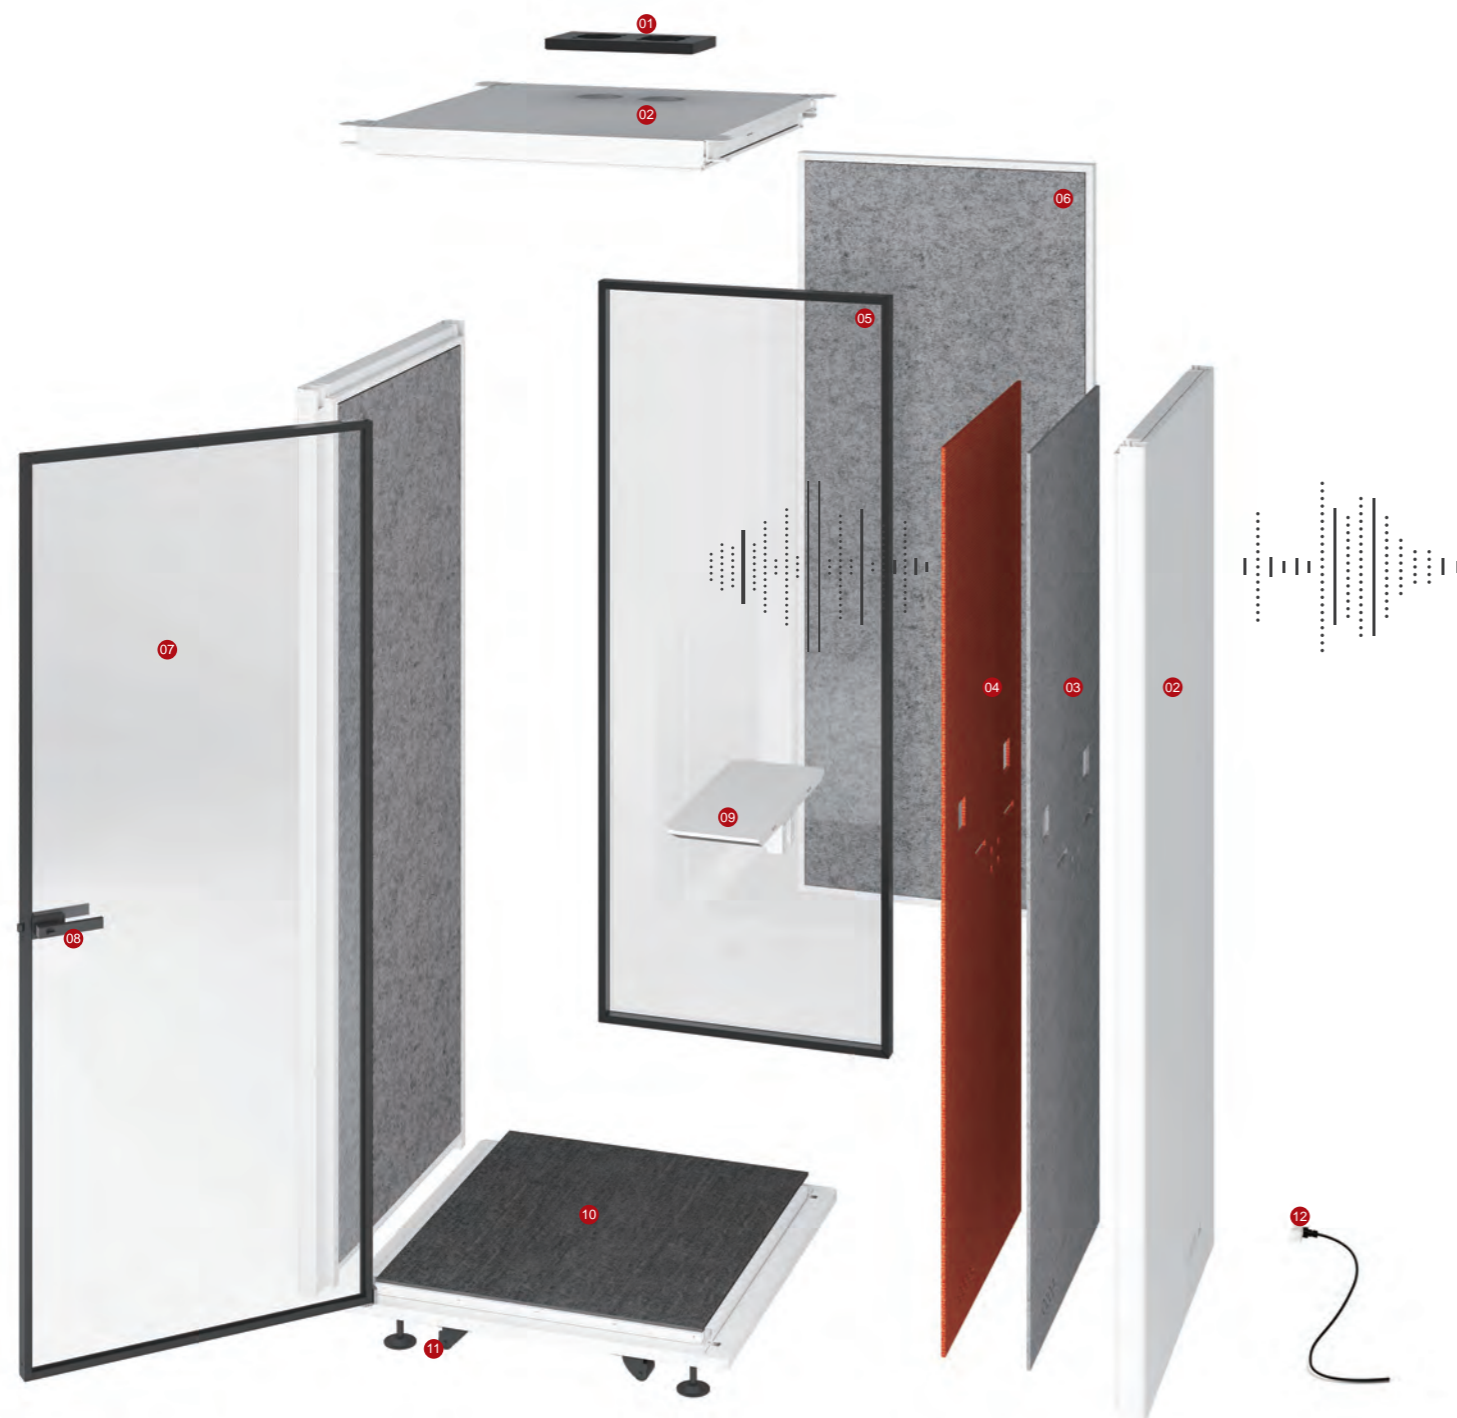

Based on our original model, the new angular edition introduces a bold, modern twist. Clean-cut lines extend from the top corners, adding visual depth and a distinct 3D form — creating a fresh, geometric style with a strong contemporary feel.

* 选配项
optional item

遵循环境声学的理念与设计美感的延续，内部墙面采用具有吸音、抗震效果的材质并组成多层结构，吸音降噪效果卓越。表层覆盖色彩丰富的布料饰面，打造设计感与优异隔音性能并存的“第三空间”。

玻璃门板与玻璃背板采用夹胶钢化玻璃，不仅能有效降低振幅效应，而且具备良好的隔音作用。玻璃门板配有高强度承重的旗型合页，大幅提升玻璃门板的安全性。门板可配限位器，便于控制门板的开合角度。

Drawing upon the principles of environmental acoustics and aesthetic design continuity, the interiors boast layers of materials engineered for sound absorption and seismic resilience, resulting in exceptional sound absorption performance. Vibrantly colored fabric finishes adorn the surfaces, crafting a 'third space' that marries design elegance with exceptional sound insulation.

Laminated toughened glass doors and back panels not only mitigate vibrational effects but also offer superior sound insulation. Equipped with high-strength load-bearing hinges, the glass doors ensure enhanced safety. Additionally, door limiters provide ease of control over opening angles.

VIBRANT COLOR CHARM
BRIMMING WITH UNPARALLELED STYLE

色彩魅力，洋溢独特风采个性

MORE INSPIRATION
EXPLORE MORE POSSIBILITIES
为家具搭配提供进一步自由度

■ TALK.ROOM Duo booth
双人静音舱
W2200xD1200xH2300mm

静音舱内部空间可以根据自己的喜好来选择合适的家具进行搭配设计，比如选择柔软的沙发坐墩，也可以搭配更休闲的吧桌吧椅，进一步提升空间的舒适性与自由度。

The interior can be personalized with various furniture options, from plush sofa seats to casual bar tables and chairs, further enhancing comfort and freedom.

多面落地式隔音玻璃为舱内创造良好的天然采光条件，增添舱内的通透性与呼吸感，宽敞明亮的玻璃背板还可以增加设备带的应用，提供墙面电源插座，同时在视觉上可作为空间的分割装饰，满足功能性与美观性的巧妙平衡。

Multi-faceted floor-to-ceiling soundproof glass optimizes natural lighting, enhancing transparency and openness. The expansive glass back panel serves as a canvas for equipment integration, offering power outlets and serving as a visual separator, striking a delicate balance between functionality and aesthetics.
